

Prachi Chougale

+91 8446041838 | prachichougale2530@gmail.com | LinkedIn | GitHub | GeeksforGeeks | LeetCode

Professional Summary

Computer Science Engineering student with strong foundations in C++, Python, JavaScript, Data Structures & Algorithms, Object-Oriented Programming, and DBMS. Adaptive to problem-solving, troubleshooting, and independently learning new technologies. Experience in developing full-stack and AI-based applications, with strong analytical thinking and effective team collaboration.

Education

D.Y. Patil College of Engineering and Technology, Kolhapur

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.94 / 10

Aug 2023 – Jun 2027

Sai International Jr. College, Gadhinglaj, Kolhapur

77.14%

Higher Secondary School (Science)

Jun 2021 – Jun 2023

Technical Skills

- **Programming Languages:** C++, C, Python, JavaScript, SQL
- **CS Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, DBMS, Computer Networks, Operating Systems
- **Frontend:** React.js, HTML5, CSS3, Bootstrap
- **Backend:** Node.js, Express.js, REST APIs
- **Databases:** MySQL, MongoDB, Firebase Firestore
- **Libraries:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn
- **Tools:** Git, GitHub, Firebase Authentication, Figma

Projects

Industrial Vehicle Loading and Unloading Management System

Feb 2026 – Jul 2026

<https://lms-logistics-management-system-psi.vercel.app/>

- Developed a real-time industrial web application to manage vehicle loading and unloading operations.
- Implemented workflow tracking, operational monitoring, reporting, and role-based dashboards.
- Built backend APIs and database workflows to support efficient data management and process automation.
- Built and maintained core backend functionalities and APIs based on evolving business requirements.

Expiry Date Alert System | *Python, Flask, OpenCV, Tesseract OCR*

Aug 2025 – Nov 2025

- Developed an OCR-based application to detect and extract product expiry dates from images.
- Applied image preprocessing using OpenCV to improve text recognition and extraction accuracy.
- Built a web-based system for image upload, expiry tracking, and automated alerts.

Smart Study Vault | <https://smart-study-vault.netlify.app/>

Jan 2025 – Jul 2025

- Developed a centralized web application for organizing and managing academic resources and study links.
- Built reusable React.js components and responsive interfaces for efficient resource management.
- Integrated Firebase Firestore for storing, retrieving, and categorizing study resources dynamically.
- Organized resources including internships, project ideas, aptitude preparation, and technical tutorials.

Achievements

- Secured **1st Rank** in the inter-college Web Wizard Web Development Competition for developing an E-Cell website.
- Achieved **3rd Rank** in the Capstone Project Competition for developing a Secondary Book Selling platform.
- Institute **Rank 13** on GeeksforGeeks.
- Solved **200+ coding problems** on LeetCode, strengthening Data Structures, Algorithms, and problem-solving skills.
- **Secretary, Rotaract Club of DYP Sunshine (RY 2025–26)**
Managed communications, meeting coordination, documentation, and team activities.
